Plus: A pair of Tennessee Hickory

Potting Sticks at no extra cost!

* 1 3/4" POT

ZYGOPETALUM

Add eye appeal to your collection with Zygopetalum. It has personality plus, it is unusual and fragrant too....

Long lasting sprays of unusual loveliness. Each spray produces six to fifteen flowers of two to three inch spread. Sepals and petals are lettuce green, heavily marked with maroon. The lip is broad, white and heavily veined with royal purple.

Both parents came from Brazil. This hybrid blooms in late fall to winter for us.

The Zygopetalum are pets at Rivermont and we predict you will have a love affair at first sight with them.
